

## Psorinum

**MIND:** Anxiety and hopelessness about the future, pessimism. Fears of poverty, health, cancer, future, failure. Suicidal thoughts and feelings. Deep anxiety. Anxious restlessness at night. Despair of recovery.

**WORSE:** Cold (open air, washing). Weather (changing, stormy, winter), **suppressions**, contact w/own limbs; *heat* (of bed, exertion, wool, hot sun). Periodicity, annual. Coffee. **Fasting.**

**BETTER:** *Lying with head low*, with arms spread wide; lying quietly. Eating, nosebleeds, hard pressure. Profuse sweating. Warm room.

**AFFINITY:** SKIN (In the folds, sebaceous glands. **EARS, BOWELS, respiration.**

**GENERAL:** Dingey look to skin, even when clean. **Body has filthy smell, even after bathing.** Frequent acute illnesses. Chilly. Offensiveness in discharges (carion-like odor). **Feels inexplicably well the day before falling ill.** Agg from suppression. Generally worse in winter, better in summer. Wants to wear a hat even on warm days.

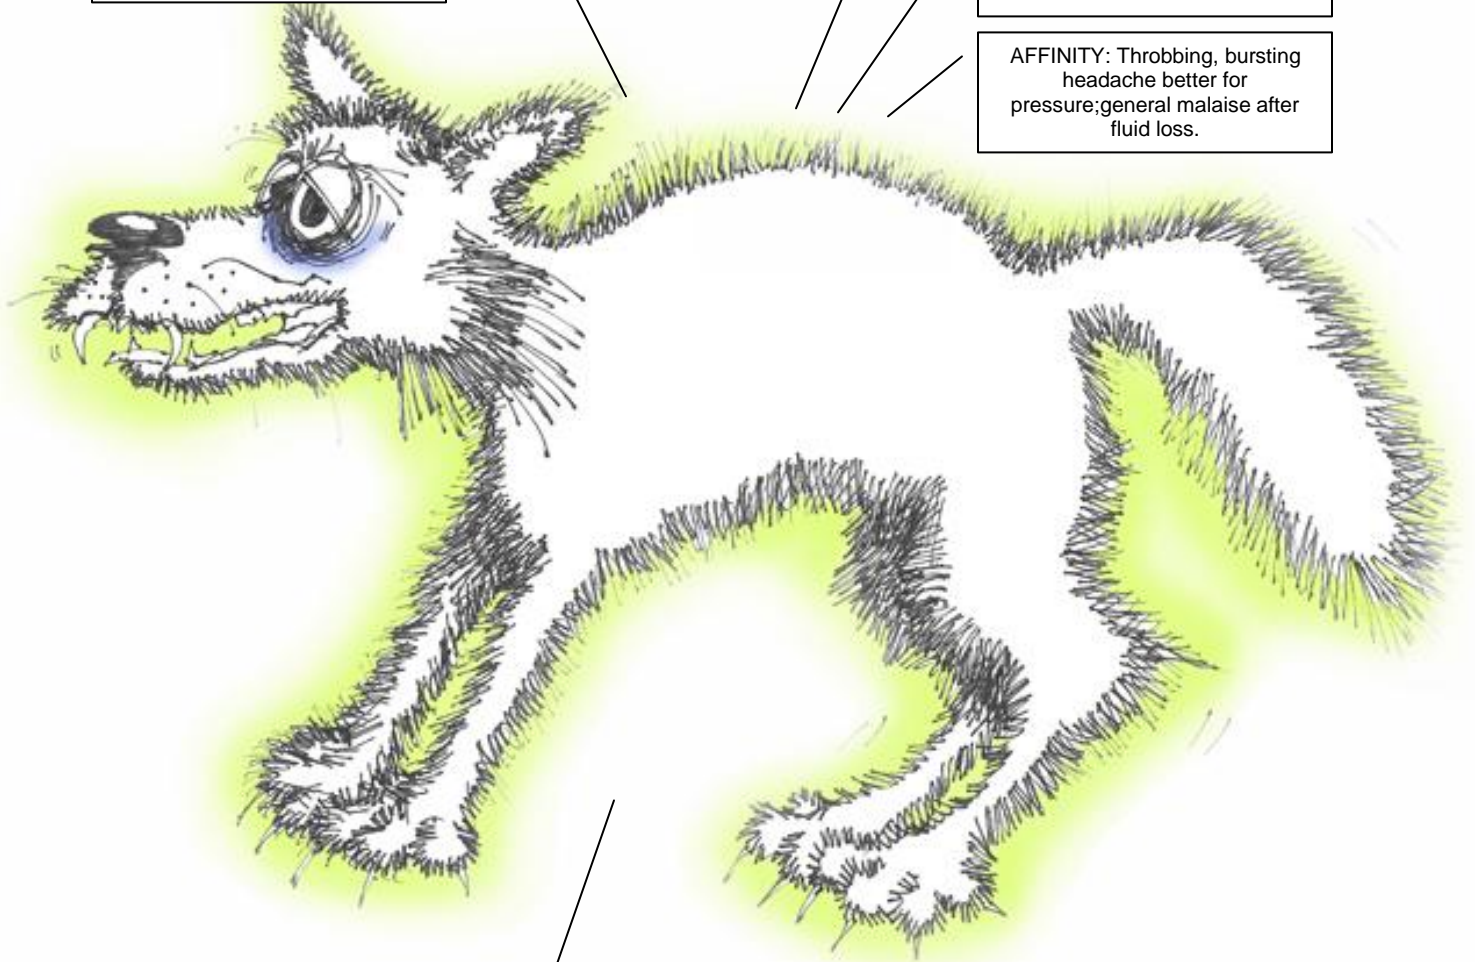

## Chinchona

**MIND:** Irritable, sensitive, "touchy." Fear of animals, **DOGS.** Gloomy, morose, depressed. Sensitive to stimuli, esp noises. Apathetic, indifferent, taciturn. Fantasies of heroic deeds and plans for the future. Suicidal thoughts but lacks courage to commit suicide.

**WORSE:** **LOSS OF FLUIDS.** Periodic fevers. Alternating days. Foggy, cold, damp; Autumn; touch, esp light touch (**Aversion to touch**); Drafts; lying down; fish, fruit, milk.

**BETTER:** Standing, bending double, **hard pressure,** Craving for sweet, salt, spicy;

**AFFINITY:** Throbbing, bursting headache better for pressure; general malaise after fluid loss.

**GENERAL:** For systems, once robust, which have become debilitated from exhausting discharges. Loss of vital fluids, esp hemorage. Debility, collapse, weakness, night sweats. Drawing, tearing pains, periosteum sore all over. Sleepy, but can find no rest. Pale face, sunken eyes surrounded by blue margin; Excessive flatulence of stomach/bowels – but passing wind gives no relief. One hand icy cold, the other warm. Intermittent fever every 7 to 14 days.

## Appendix A – Study Notes from Kent’s Repertory

### Psorinum Fears/Anxieties/Delusions/Ailments

The fears/anxieties of Psorinum are simple and quite common (most of us have some fear of these things, except perhaps while riding in a carriage!), yet like the incessant itch, its fears are equally incessant, as there is no relief from them:

MIND - ANXIETY  
MIND - ANXIETY - daytime  
MIND - ANXIETY - daytime - 5 a.m.to 5 p.m.  
MIND - ANXIETY - conscience,of (as if guilty of a crime)

MIND - DELUSIONS, - sick, - imagines himself

### Psorinum Single Symptoms

There are 128 single symptoms for Psorinum in Kent’s Repertory. There are unique aggravations of itching after wine, problems with peaches and pork, sleeping with arms out-stretched, cramping in the toes on stretching, seeing colors, stars or black spots before the eyes, grayness of hair in spots, motion of the kneecap, vanishing of thoughts after over-lifting, offensive odor of stool at night, and other unique or SRP effects. One can get anxious and itchy simply reading them. Obviously the ‘polychrest’ of the Psoric state.

## Cinchona (China)

The Cinchona mind seems a bit more active than Psorinum, full of visions, images, and torment; fears specifically relate to dogs, night time, animals, evil, and ghosts. When seeing the bark, it is not so easy to get a sense of the remedy's pain and sensitivity, but one look at the blossom from this tree, and the rubrics seem to come to life.

## Cinchona Single Symptoms

The single symptoms of China are significantly different than Psorinum. A quick glance gives one the idea of how much pain and sensitivity this patient experiences. Here there is also an intriguing collection of SRP symptoms (desire for cherries with agg. from sour fruits, as an example) and it is easy to see the characteristic aggravations after loss of fluids for which Cinchona is noted.
